Important Information Inside for QuickBooks Customers

IMPORTANT:

Action required immediately to ensure your direct deposit service is uninterrupted.

Dear QuickBooks Direct Deposit Customer:

We would like to make you aware of some important changes which will be affecting the direct deposit service that you currently access through QuickBooks. Our current partner, Optimal Payments, has informed us that effective **December 15, 2005** they will no longer be able to offer this service. Therefore, please take note that the last day that a payroll submission file can be submitted under the existing process will be **Friday December 9, 2005**.

However, I am pleased to inform you that we have made arrangements with another provider which will ensure your continued ability to pay your employees through direct deposit. This new partner, TelPay Inc., has been providing electronic payment services to Canadian businesses for the past 20 years. In addition, TelPay offers a number of key benefits compared to our current solution including:

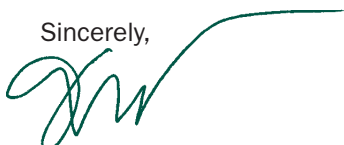

- **Improved Lead times** — Depending on your choice of funding option and banking arrangements, you will be able to submit direct deposits with as little as two days lead time (i.e. send the direct deposits to TelPay on Wednesday for a Friday payday).
- **Improved pricing in many cases** — TelPay's fees are only \$0.15 per direct deposit with a minimum \$5 fee per pay run. A monthly charge of \$15 will also apply.
- **Electronic payment of source deductions** — along with other bill payment options.

As a further incentive to our existing Direct Deposit customers, TelPay has agreed to waive their one-time \$75 implementation fee. In order to take advantage of this introductory offer, all you need to do is fill out the enclosed application form from TelPay and FAX or mail it to TelPay as per the instructions at the bottom of the form. Once they receive your application form, TelPay will provide you with instructions to complete the setup process. **Please act quickly** to ensure continuity of your direct deposit service, as it will take approximately one week or more to set-up your account with TelPay. Once you are set-up with TelPay you will be able to start using the service immediately thereby avoiding last minute delays.

Intuit is working closely with TelPay to develop a completely integrated solution with QuickBooks, similar to our existing offering. However, in the short-term you will have to initiate the transfer of payroll information from within the TelPay application (as opposed to initiating the direct deposit service directly from within QuickBooks as our current solution allows). We trust the great benefits offered by TelPay will more than offset this short-term inconvenience.

Should you have any questions about your existing direct deposit account, please do not hesitate to contact Optimal Payments at 1-866-261-9941 or via email at support@quickbooksdd.ca. For more information on TelPay please visit their website at www.telpayforbusiness.ca.

Sincerely,

Gord Meeberg
Director, QuickBooks Payroll Services

DIRECT DEPOSITS BY TELPAY[®]

BETTER. FASTER. CHEAPER.

TelPay[®] – Canada's bill payment specialist for 20 years facilitates direct deposits for QuickBooks payroll.
